NO. 2008-45045

Angela Robinson,

vs.

Richard N. Laminack et al

§  
§  
§  
§  
§  
§  
§

IN THE DISTRICT COURT OF

HARRIS COUNTY, TEXAS

295th JUDICIAL DISTRICT

**Order Granting Partial Summary Judgments**

This case has been on file since July 25, 2008. All defendants in this case have moved for Traditional and No-Evidence Partial Summary Judgments in this case on all causes of action except for the claims under the Fair Labor Standards Act. No oral hearing<sup>1</sup> was requested on the motions.

The plaintiff's entire unverified response is quoted below:

Plaintiff would show that the Defendants have failed to meet their burden of proof. Plaintiff would show that the evidence is insufficient to support Summary Judgments. Plaintiff would show that the Motions are premature in that Defendants have failed to respond to discovery seeking relevant information and evidence which goes to the very heart of the matters at issue and accordingly should not be granted until all relevant outstanding discovery has been answered.

This response fails to raise any issues to defeat the motions. The court grants the motions and dismisses all claims against all defendants except for the claims under the Fair Labor Standards Act.
